**Diagnostic & Preventive Benefits**

**Diagnostic:**
- Limited oral evaluation.
- Oral evaluation – one time in any period of six (6) consecutive months. This can be a comprehensive or periodic evaluation provided by a specialist or a general dentist.
- Complete series or panoramic image once in any period of three (3) years; bitewing images once in any period of twelve (12) consecutive months; images of individual teeth as necessary.

**Preventive:**
- Prophylaxis (cleaning) – one time in any period of six (6) consecutive months. This can be a routine prophylaxis or a full mouth debridement under Diagnostic and Preventive, or periodontal maintenance under Basic Restorative.
- A full mouth debridement under Diagnostic and Preventive Benefits is covered once in any period of two (2) consecutive years and, when performed, is counted towards your prophylaxis benefit.

**Exclusions & Limitations:**

Certain covered services are subject to time and frequency limitations; time and frequency limitations are measured from the date the service was last performed. Covered services containing frequency limitations are available for more frequent treatment only with Prior Authorization. Certain covered
services apply to treatment for specified teeth. Certain procedures are considered a component or part of a complete treatment, and not separately chargeable by the dentist. Fluoride treatments, sealants, space maintainers, cone beam imaging, and TMJ related services are not covered benefits. Other exclusions and limitations apply. Please refer to your policy for details.

## Basic Restorative

### Restorative:
- Amalgam (silver) restorations (fillings).
- Resin (white) restorations (fillings).

### Periodontal:
- Treatment of diseased tissue supporting the teeth.
- Prophylaxis (cleaning) – one time in any period of six (6) consecutive months. This can be a routine prophylaxis or a full mouth debridement under Diagnostic and Preventive, or periodontal maintenance under Basic Restorative.
- A full mouth debridement under Diagnostic and Preventive Benefits is covered once in any period of two (2) consecutive years and, when performed, is counted towards your prophylaxis benefit.

### Endodontics:
- Pulpal therapy, apicoectomies, retrograde fillings, and root canal therapy.

### Oral Surgery:
- Extractions and covered surgical procedures.

### Clinical Crown Lengthening:
- Once in a lifetime per tooth.

### Palliative Treatment:
- Minor emergency treatment for the relief of pain.

### Anesthesia:
- General anesthesia, intravenous sedation and non-intravenous conscious sedation are covered benefits when done in conjunction with other covered services.
Denture Repair:

- Repair of removable complete or partial denture to its original condition.

Exclusions & Limitations:

Certain covered services are subject to time and frequency limitations; time and frequency limitations are measured from the date the service was last performed. Covered services containing frequency limitations are available for more frequent treatment only with Prior Authorization. Certain covered services apply to treatment for specified teeth. Certain procedures are considered a component of or part of a complete treatment, and not separately chargeable by the dentist. Anesthesia may be administered only in conjunction with certain specified procedures. Tissue conditioning is not a covered benefit. Dentists may also be restricted from charging for certain repairs, replacements and retreatments. Certain procedures require dental consultant review or Prior Authorization, and Predeterminations are recommended for cases involving costly or extensive treatment plans. Other exclusions and limitations apply. Please refer to your Policy for details.
