1 Introduction

1.1 Overview

DataSpring, powered by CAQH, is the trusted data connector at the core of healthcare, powering the industry with accurate, authorized data from providers and payers to create a more connected ecosystem for all. DataSpring is the premier industry solution for dentists to easily self-report data required by dental plans other organizations. This information is used for credentialing, directory management, claims, and other key functions.

The American Dental Association (ADA) and DataSpring (formerly CAQH) are working together to make it easier for dentists to enter and share their professional and practice data with dental plans and other healthcare organizations by utilizing the DataSpring CAQH Provider Data Portal. Dentists can enter their professional and practice information once and submit it to the participating dental plans and organizations of their choice, reducing the administrative burden of the credentialing process. This data can also be used to update provider directories and other business needs.

This service works by allowing any US-licensed dentist to access their Provider Data Portal profile by first logging into their My ADA profile on [ADA.org/godigital](https://ada.org/godigital). After logging into My ADA and accepting the terms and conditions, dentists will be redirected to the Provider Data Portal Welcome Page. There, they may see certain prepopulated information from the ADA, or the information they attested to previously, making it easier and quicker for dentists to complete and attest to their profile.

NOTE: Any U.S. licensed dentist can use the ADA credentialing service, free of charge, regardless of their ADA membership status. Visit [ADA.org/godigital](https://ada.org/godigital) to start the process. Having trouble logging in or have other questions? Please contact the ADA Member Service Center at 800.621.8099, Monday – Friday 8:30 am – 5:00 pm, or via email at msc@ada.org.

1.2 Scope

This document is intended to serve as a quick reference for dentists working with the Provider Data Portal.

2 Using the Provider Data Portal

All U.S. licensed dentists, including ADA members and non-members alike, will begin at the ADA online portal in order to access the Provider Data Portal. Perform the following steps to complete your Provider Data Portal profile:

1. Navigate to ada.org/credentialing and then click the **Login** button.
2. Enter your login credentials.

NOTE: If you need help, please contact the ADA Member Service Center at 800-621-8099 or msc@ada.org (Monday – Friday 7:00 AM – 6:30 PM Central Time).

3. Click the **Log In** button. You will be directed to navigate to your My ADA Account.

Please note that located near the bottom of the ADA login page, there is an option for non-dentists to create an ADA account. This is not an option to gain access to the ADA credentialing service or to submit credentials on behalf of a dentist. Access to the ADA credentialing service is limited to dentists and currently enrolled dental students only. The dentist must be logged in to their own ADA account to access the ADA credentialing service.

The image is a screenshot of the ADA login page. At the top, the ADA logo is displayed in white on a blue background. Below the logo, there is a green box with text: "For testing issues or to request national board results, access your DENTPIN account." Underneath this, it says "Please log in with your email address." The login form consists of two white input fields: "Email" with a person icon and "Password" with a lock icon. Below these fields is a dark blue "Log in" button. To the right of the "Log in" button is a "Remember me" checkbox with a checkmark. Below the login fields, there are links for "FORGOT USERNAME" and "FORGOT PASSWORD". Further down, there is a section titled "NEED ASSISTANCE WITH YOUR LOGIN?" with contact information: "Call 800.621.8099 or chat with us. (Weekdays between 7 am - 6 pm Central)". At the bottom of the form, there is a red-bordered box containing the text "NOT A DENTIST? Create an account". Below this box is a link for "ADDITIONAL QUESTIONS? See FAQ".

4. Complete the fields to self-register.
 - If you attempt to self-register in the Provider Data Portal, the Sign In page will request that you register on ada.org/credentialing. If you try to create a new DataSpring profile, the system will prompt you with an error message. The system will not allow you to proceed with registration, and the **Continue** button is disabled.
 - In such cases, use the links provided within the Provider Data Portal to navigate to the ADA website or ada.org/credentialing.

5. Once you have successfully logged in to your My ADA profile, the ADA credentialing service Terms and Conditions are displayed. Click the checkbox to acknowledge that you've read, understand, and agree to the Terms and Condition and then click the **Get Started** button.

The screenshot displays the ADA website's CAQH Credentialing section. On the left, a user profile for 'Dr. Jane Dentist' (ADA # 475489055) is shown with a 'Member card' and a 'Renew' button. Below the profile is a sidebar menu with options: Latest, Benefits, CE, History, Account, Profile, CAQH Credentialing (highlighted), Password, Payment, and Member Service Center. The main content area is titled 'CAQH Credentialing' and contains a paragraph explaining the service. Below this, a list of terms and conditions is provided, followed by a checkbox for agreement and a 'Get started' button circled in yellow.

CAQH Credentialing

The ADA credentialing service is an easy-to-use online portal powered by CAQH ProView®. Acknowledge the following terms and conditions to get started. The ADA may transfer some of your information to the CAQH portal to simplify the process.

7. You will be directed to the Personal Information page. Please note that for new users, select information that you entered in your My ADA page may be transferred to your Provider Data Portal profile. You do not have to re-enter this information, but confirm that it is correct, and if not, please update as needed.

You must complete all required fields, upload all required supporting documents, and review the accuracy of your information before completing your profile. You must also authorize the organizations you choose to receive your data. The ADA and DataSpring both recommend that all dentists choose the global setting to increase administrative efficiency. Once data entry is complete for the profile, you must attest to your information.
